

Domobar Junior Espresso Machine

Commercial quality at home

Domo is Italian for home. Bar is Italian for café. Domobar: café at home.

The Domobar Junior, made in Italy designed in New Zealand by Espresso Engineers for New Zealanders.

The VBM Domobar Junior is the little brother to the Domobar Super in size but still delivering mighty performance in a smaller package giving you a flat white as good as you'll get anywhere in the world and sized to perform just about anywhere - bach, boat or at home.
